## Business description

Established in May 1969, Kurokawa Press has been offering distinguished press services from prototype to mass production, capable of producing any shape by using materials that fit customers' needs. It produces progressive stamping up to 200 tons as well as single-shot stamping up to 150 tons and introduced a PDL-200 knuckle link press to meet customers' requirements. Kurokawa Press has years of experiences and expertise that can provide customers with high-performance solutions in metal processing.

## Products

- Precision Press
- Mold design / production processing
- accessory services including plating, cleaning, and welding, etc.

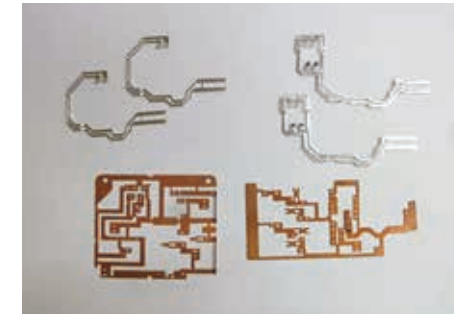

## Unique selling points

Accommodates multi-product processing and small lot orders from prototyping to mass production
