President  
Mr. Akihiro Kitsuda

## Contact

Please feel free to contact the project manager and the coordinator (see the back cover) for any inquiry or quotation you may have.

## Business description

### Multi-product manufacturing with variable quantities

Plant yonezawa specializes in industrial molds for electrical, electronic, automotive, and medical equipment or ultra-precision metal parts for automated machines. Its production ranges from small-lot products to mass-produced products as well as fully and partially processed products driven by the Quality, Cost and Delivery (QCD) system.

Plant yonezawa is capable of large scale production – it has achieved a maximum monthly production of 28,000 machine hours, 1,500 kinds of components, and 15,000 pieces/units of parts by using over 60 units of linear high-speed cutting, linear discharge, linear wire cutting, NC grinding, and three-dimensional measuring instruments.

## Products

Precision mold and die parts—

Electronic devices, automotive electrical parts, home appliances, electronic game devices

· Precision engineering, parts for plastic molds—

Office automation equipment parts: printers, fax machines, copy machines, etc.

Optical equipment parts: light guide plates, cameras, mobile phones, etc.

Video equipment parts: plastic aspheric lenses, etc.

· Precision automated machine parts—

IC Steppers and Scanners

Electronic Component Manufacturing

· Jet engine parts

· Turbo charger parts for automobiles

## Unique selling points

- High precision technical capabilities
- Short lead times possible
- Excel at prototyping and single-unit production
- Competitive pricing

Precision Cutting

Precision Grinding

Electric Discharge Wire Cutting
